Who am I

Highly motivated and resourceful individual, who is searching for an opportunity to apply her enthusiasm and strong problem solving skills as a front-end developer.

- Junior Web developer able to build a Web presence from the ground up -- from concept, navigation, layout and programming, to UX and SEO.
- Skilled at writing efficient, well-designed, and, testable code using current best practices in Web development.
- A team player with excellent verbal and written communication skills, that works well collaboratively and independently.
- Excellent mathematical and analytical skills, and the ability to tackle problems with confidence when no clear solution is present.
- Strong desire to take on new challenges, and continuously seek to update and learn new technologies and languages.

Skills

JavaScript (ES5/6/7)	Bootstrap
HTML5	Chrome Dev Tools

Git	Adobe Illustrator

Experience

Jashlabs / Junior Front-End Developer
November 2017 - PRESENT, TORONTO

Developed responsive and user friendly websites based on specified designs.

- Wrote testable and maintainable code
- Communicated effectively with other team members to ensure timelines were followed
- Performed browser testing and debugging

Citco Fund Services / Senior Investor Relations Specialist

July 2017 - June 2018, TORONTO

Contributed to team success through support and open communication with junior staff members. Continuously worked to build strong client relationships by ensuring team deliverables were met in a timely manner, and by implementing more effective processes where possible.

- Investigated and addressed process failures, and formulated risk mitigation strategies
- Delegated and prioritized workload to ensure team fluidity and efficiency
- Supervised and mentored junior staff members to ensure team success

Citco Fund Services / Junior Investor Relations Specialist

April 2015 - July 2017, TORONTO

Addressed investor queries, acting as an intermediary between investors and fund managers, showcasing excellent client relationship skills. Employed various internal software for trade processing and ad-hoc reporting.

- Managed daily hedge fund operation including detail review of trade documents and legal documents
- Efficiently operated internal company systems and software
- Demonstrated strong stakeholder relations by corresponding with various departments inside and outside the organization, ensuring client satisfaction
